Feeding Directions:

Feed as the sole ration to laying hens from onset of egg production (18-20 wks of age). Profile Laymaker 18% is especially recommended for feeding to young layers during periods of very hot temperatures or low feed intake, e.g. less than 20 lbs per hundred birds per day. May be used during the entire production cycle. DO NOT provide additional grain or free choice calcium source. Provide fresh clean water at all times.
