## MINERAL SUPPLEMENT FOR BEEF CATTLE

**Specie:** Beef

**Type of Feed:** Mineral

**Form of Feed:** Granular

**General Description:** Mineral Supplement for Beef Cattle.

## MINERAL SUPPLEMENT FOR BEEF CATTLE

### Guaranteed Analysis

<b>Crude Protein</b>	(not less than)	2.60%
<b>Calcium</b>	(not less than)	17.95%
<b>Calcium</b>	(not more than)	18.40%
<b>Phosphorus</b>	(not less than)	6.0%
<b>Salt</b>	(not less than)	20.0%
<b>Salt</b>	(not more than)	21.0%
<b>Copper</b>	(not less than)	2500 ppm
<b>Selenium</b>	(not less than)	20.0 ppm
<b>Zinc</b>	(not less than)	5600 ppm
<b>Vitamin A</b>	(not less than)	200,500 IU/lb
<b>Vitamin D3</b>	(not less than)	20,000 IU/lb
<b>Vitamin E</b>	(not less than)	100 IU/lb

### Ingredients:

Monocalcium-Dicalcium Phosphate, Calcium Carbonate, Salt, Vitamin A Supplement (stability improved), d-activated Animal Sterol (source of Vitamin D3, Stability improved), Vitamin E Supplement, Manganese Sulfate, Zinc Sulfate, Basic Copper Chloride, Ethylenediamine Dihydriodide, Cobalt Carbonate, Copper Sulfate, Organic Iodine, Sodium Selenite.

**Feeding Directions:** Feed free choice to pasture cattle as a nutritional source of vitamins and minerals. Feed so cattle consume an average of 2-3 ounces of mineral per head per day. Provide at least 1 mineral feeder per 25 head of cattle, (so all animals have a chance to consume the mineral.). Place the mineral feeders where animals gather such as loafing, grazing, feeding and watering areas. Do not feed other sources of salt.

**CAUTION:** DO NOT feed to sheep or allow sheep to access as this mineral contains copper.

Additive Options: (\*VFD Required)

- Aureo\*
- Altosid
- Bio-Mos
- Garlic
