

# PREVAIL™

**DRIVING PERFORMANCE. DRIVING YIELD+.**

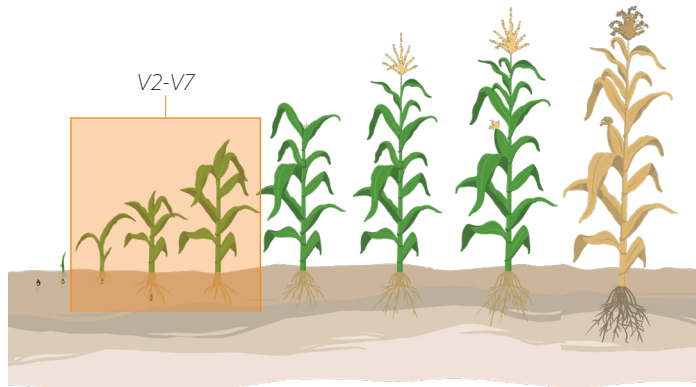

Prevail is the industry's first yield increasing adjuvant that delivers unequalled coverage and retention, AMS water conditioning, and an efficient surfactant package.

Application Method:

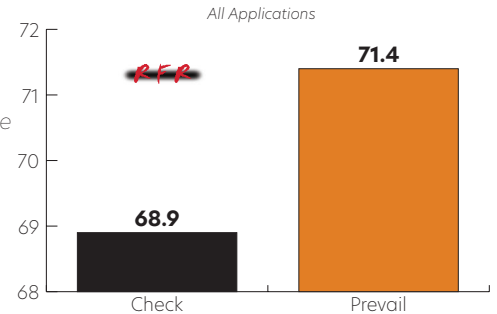

**Use Rate:** 16 oz/acre

**+2.5**  
Bushel Advantage

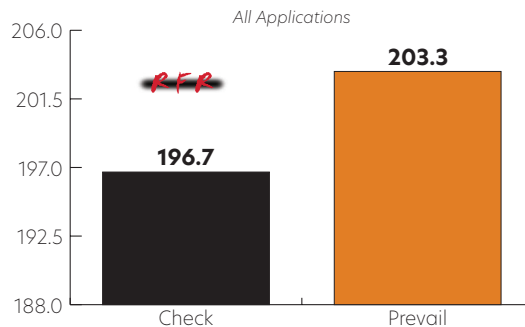

**Yield Increasing Technology Soybean Data**

## Why Prevail?

- Essential plant derived components that increases plant energy resulting in improved yield potential
- AMS based water conditioning to enhance herbicide performance
- Superior efficient surfactant package gets more herbicide into the plant resulting in better weed control
- Extremely easy to handle

**Yield Increasing Technology Corn Data**

**+6.6**  
Bushel Advantage

## Droplet Distribution in Crop Canopy Comparison
