

Ransom creates a more productive soil by improving microbial diversity, enhancing mineralization, nutrient uptake and plant vigor to optimize your overall yield potential.

Application Method: 

Use Rate: 4 grams/per acre

Technical Information

1 case = 4 bottles = 160 acres

1 bottle = 160 grams = 40 acres

Why Ransom?

- Custom blend of 8 microbial strains to solubilize key nutrients (N, P, K)
- Delivers powerful soil-based bacteria that contains a very high CFU count
- Promotes the propagation of beneficial microbes
- Ransom begins to sporulate and divide in as little as 3 days, matching up well with seed germination
- Offers exceptional tank-mixing compatibility with pesticides and a wide range of fertilizers

Phosphorus tie up with multivalent cations forms insoluble minerals. Nutrients in this form are unavailable for plant uptake.

START
AGPRO
STARTER FERTILIZER

Low-salt, seed safe starter
Improve emergence

ENHANCE
PRO-LOCK
STARTER FERTILIZER ENHANCER

Increases P availability
Stimulate root growth &
microbial activity

GENERATE
RANSOM
BIOLOGICAL STIMULANT

Custom blend of bacteria that
colonize plant roots
Solubilize minerals for season
long nutrient-use-efficiency

BIOSTIMULANT
